CNC MACHINING
Production Machining Services

01 IMPROVE PART QUALITY
With the integration of robotics, we minimize human error while increasing the trustworthiness of our products. Our various machines provide a diverse amount of capabilities and are engineered to provide world class products with unmatched quality.

02 TIGHTEN LEAD TIMES
All of our machines utilize the latest technological innovation available. Through optimization & advanced engineering, we are able to handle small to large volume production runs, while increasing the part quality and lowering your lead times.

03 LOWER YOUR OVERALL COSTS
We understand the high costs and consequences of delayed deliveries and poor quality. At QMC, each team member is fully involved in the inspection and quality control process. Our goal is 100% defect free products delivered on time and ready to implement.

For over 40 years, QMC Technologies, Inc has been proudly providing high quality custom CNC machining services to a diverse range of industries. Many of our components are used in applications worldwide.

Our primary motivation is to be at the forefront of leading edge advanced manufacturing technology.

We pride ourselves on being able to provide you the highest level of craftsmanship, quality and excellence at a competitive price.

Because of the quality and integrity model that we strictly adhere to, we have been placed in the top percentile of our Fortune 1000 customers.

- Lowest Risk Vendor Philosophy -

- Consistent & Reliable Quality
- Advanced Ordering System
- On-Time Delivery
- Lowered Overall Costs
- Traceable Documentation (Every Shipment)

In addition to precision CNC machining and milling services, we also offer value added services to further decrease lead times & costs.

Extended and Value Added Services:
- Laser Engraving
- Custom Bagging & Labeling
- Passivation & Sanitization
- Hydraulic Crimping & Assembly
- Annealing/Heat Treating
- Broaching
- Anodizing/Plating

Documentation:
- Certificate of Conformance
- Material Test Reports
- Quality Documentation: PPAP/SPAP
- Inspection reports (available upon request)

ADVANCED LEAN MANUFACTURING

MATERIALS
- Alloy Steels
- Aluminum
- Brass
- Bronze Alloys
- Carbon Steel
- Iron
- Plastics
- Stainless Steel

PROCESSES
- Threading: External, Internal
- Thread Milling
- Turning/Facing: Contour, Form
- Taper Turning
- Straight Turning
- Boring/Counterboring
- Machine Engraving
- Parting/Cutting
- Drilling
- Countersinking
- Pocketing
- Profiling
- Reaming
- Tapping
- Knurling

EQUIPMENT
- Gantry Loaded CNC Machining Centers
- Automated CMM
- Bar Feed Turning Centers
- CNC Machines w/ Integrated Robotics
- Automated Tool Measurement
- FiberMarker Laser Engraver

INDUSTRIES
- Automotive
- Aerospace
- Construction
- Electronic
- Filtration
- General Mfg.
- Industrial
- Medical
- Military
- Mining
- Pharmaceutical
- Security
- Semiconductor
- Sensors
- Transportation

FITTINGS DISTRIBUTION & SUPPLY
PIPE FITTINGS, FLANGES, NIPPLES, & VALVES
CUSTOM SANITARY FABRICATION
- Special volume pricing
- Price match policy
- Multiple shipping points across the US for quickest & lowest cost shipping
- Quality & cost combined to provide you the highest ROI
- Thousands of items listed online & access to thousands more
- Real People, Real Solutions
  No long dial menus or chat bots
